Tailored and modular build as per your specifications

Open Cooling Towers

Vestas Industrial Cooling specializes in customized open cooling towers for industrial process applications. Our modular solutions are built for long lifetime, competitive delivery and optimized energy, water and noise performance.

Engineered for your process

Each open cooling tower is designed according to site conditions, required cooling capacity, water quality, noise limits and operational needs.

Benefits using Vestas industrial cooling:

- Customized design for site and process requirements
- Modular build for competitive delivery and installation
- High-quality materials for long lifetime
- Optimized performance for noise, energy and water consumption
- Outlet water temperature below ambient dry-bulb temperature through evaporative cooling

RELEVANT INDUSTRIAL SEGMENTS

- Pharma
- Chemical
- Food & Beverage
- Energy
- Water Treatment

CAPACITY RANGE

Available in a wide capacity range from 1 m² footprint to 144 m²
