Benefits from Vestas industrial cooling

- Experienced service engineers and supervisors travelling world wide
- Service agreements for preventive maintenance and ad hoc tasks
- Full documentation and detailed service reports
- High-quality all brand spare parts for reliable operation
- Quick support via 24/7 hotline

Beyond service and maintenance, we also upgrade existing cooling towers to improve efficiency, reliability and control. Solutions can include high-efficiency motors, VFDs, optimized fan control and modernization of the drive system.
